

VDRS Tomra Training School - October 13-17, 2025

To help us improve our program in the future, please take a minute to fill out the following survey:

1. How would you rate both the instructor's knowledge on the subject matter and his ability to present the information?

Todd presented the information in an easy to understand format and was very thorough in his explanations.

2. We understand there is never enough hands-on training. What hands-on training did you think was most beneficial? What hands-on training do you think would help future students?

Sensor calibration and recipe selections.

3. How would you describe the depth of training?

Small class size gave us the ability to dive deep into technical details of classifier builds, geometry, and sensors.

4. How satisfied were you with your accommodations, the lunch provided, and the evening meals?

Excellent

5. How is our training program different than others you attended?

More technical and better presentation methods.

6. Would you recommend this class to others? Why or why not?

Yes! Knowledgeable maintenance staff is a key to efficient operations.

7. Other comments for our Management Team:

Thank you all for the hospitality!

8. Can Van Dyk use your answers as part of their promotional materials?

Yes
